### **DETAILED ACTION**

This office action is in response to the Amendment filed 14 January 2004.

All prior rejections have been overcome with said amendment and the Examiner's  
Amendment incorporated herein.

#### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Jensen on 13 February 2004.

The application has been amended as follows:

Specification, Page 4, line 23, "Fig. 2(a) is a front view showing a front view showing" has been replaced with --Figs. 2(a) and 2(b) show--

Claim 1 has been replaced with the following:

--A method for producing a paper feed roller comprising a rotary shaft and a cylindrical roller portion integrated around an outer periphery of the rotary shaft, comprising the steps of:

providing a rotary shaft;

Art Unit: 1732

forming a roller portion by extruding a hydraulic composition along a rotational axis of the rotary shaft;

and curing and hardening the extrudate.--

Claims 6 and 13 have been cancelled.

***Allowable Subject Matter***

Claims 1-5 and 7-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches nor suggests the claimed method for producing a paper feed roller wherein a hydraulic composition is extruded along a rotational axis of a rotary shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
